PROFILE SUMMARY

I am a graduate of the University of Birmingham Coding bootcamp seeking employment. Highly motivated and excited to begin a career in my new found passion – Software Development.

TECHNICAL SKILLS

Responsive web design using HTML5, CSS3 and frameworks such as Bootstrap, Tailwind and Bulma
Dynamic web page development and API implementation using JavaScript, React.js and jQuery.
Back end web development using Node.js and Express.js
Database design and management using MySQL, sequelize, MongoDB and Mongoose.
The use of server side templating engine Handlebars.
Object-Orientated Programming with JavaScript.
Version control with the usage of Git and Github/GitLab.
Understanding of Test Driven Development and Unit testing

PROJECTS

Macro Meals

An application / website that takes in user values, and generates a daily calorie requirements based on the users desired health goal. It presents the user with recipes that will allow the user to meet their daily calorie requirements and then creates a virtual dashboard allowing the user to test, randomise and save their recipes.

Technology used: HTML, CSS, Tailwind, JavaScript, jQuery.

Deployed page: grantrt.github.io/Macro-Meals/

Code: github.com/GrantRT/Macro-Meals

Mood Tracker

A platform to track your own and your friend's mental well being. The user can input their daily moods which then renders to a graph. They are also able to search for their friend's mood graphs via the friend's username.

Technology used: HTML, CSS, Bulma, JavaScript, Node.js, Express.js, Day.js, jQuery, Handlebars, Chart.js, MySQL, Sequelize, Bcrypt.

Deployed page: mood-tracker-gkl.herokuapp.com/

Code: github.com/GrantRT/Mood-Tracker
